Anweshan Rai

QA Engineer | Manual & Automation Testing

Lazimpat, Kathmandu, Nepal · +977 9808143370 · anweshan2000@gmail.com

Professional Summary

QA Engineer with 2.5+ years of experience owning end-to-end testing, from manual test design to automated UI, API and mobile regression suites run in CI/CD. Experienced across healthcare SaaS, edtech and ecommerce products in Agile teams, with a data background that brings strong attention to detail.

Technical Skills

- **Automation:** Selenium, Cypress, Playwright, Appium
- **API & performance:** Postman, REST Assured, JMeter
- **Test management & CI/CD:** Jira, TestRail, Zephyr, GitLab CI, Jenkins, Git
- **Languages & data:** JavaScript, Python, Java, SQL
- **Testing:** Functional, regression, integration, UAT, cross-browser, performance

Professional Experience

QA Engineer — Clinic Saver

Kathmandu, Nepal · 02/2026 – Present

- Own the full QA cycle for four products (Clinic Saver, Clinovy, Replyn, Dukkanti), from requirement review to release sign-off.
- Build and maintain automated UI regression suites with Selenium, Cypress and Playwright, and mobile tests with Appium.
- Test REST APIs with Postman and REST Assured, and run JMeter load tests before major releases.
- Run automated suites in GitLab CI and Jenkins pipelines so regression runs on every build.
- Manage test cases in TestRail and Zephyr, track defects in Jira, and validate backend data with SQL.

Associate QA Engineer (from QA Intern) — Innovatetech Pvt. Ltd.

Kathmandu, Nepal · 04/2024 – 01/2026

- Wrote and ran test plans and test cases for functional, regression, integration and smoke testing on web platforms.
- Found and reported bugs and usability issues with clear steps to reproduce, working closely with developers and designers.
- Took part in stand-ups and sprint planning, and helped standardise QA documentation and processes.

Data Analyst — CloudFactory

Kathmandu, Nepal · 02/2023 – 02/2024

- Cleaned and validated large datasets in Excel and met daily targets with remote teams under tight deadlines.

Key Projects

- **Clinic Saver suite (Clinic Saver, Clinovy, Replyn, Dukkanti):** Built manual and automated test coverage for web and mobile workflows, with API and regression tests running in CI.
- **Kungfu Quiz (KFQ):** Led sprint planning and milestone tracking on GitLab boards, documented requirements, and supervised UAT before release.
- **My Second Teacher (MST):** Ran functional, regression, integration and usability testing across the Global, Nepal, Indonesia and Alston versions.
- **Interactive Video Publisher (IVy):** Tested video upload and interactive questions, confirming they triggered correctly during playback.
- **Ecommerce website:** Defined the QA strategy and tested cart, checkout, payments and accounts across browsers and devices.

Education & Languages

- **Bachelor in Computer Application (BCA)** — Janamaitri Multiple Campus, Kathmandu · 2018 – 2022
- **Plus 2 (Management)** — Trinity International College, Kathmandu · 2016 – 2018
- **Languages:** Nepali (native), English (fluent)
